## WORK EXPERIENCE

### Frontend Developer Cost-Effective Solutions

05/2024 - 03/2025

Achievements/Tasks

- Developed and maintained web applications using React and Next.js, focusing on clean architecture and reusable UI components.
- Built responsive user interfaces with Material UI (for ERP and Family Tree projects) and TailwindCSS (for the travel planner), ensuring consistent and modern design.
- Implemented real-time data handling and authentication with Firebase and JWT, enhancing interactivity and security.
- Created and validated complex forms using Formik, React Hook Form, and Yup.
- Integrated third-party services like Stripe for secure payments and Google Maps API for travel route planning.
- Developed data visualizations and export features using Recharts, D3.js, jsPDF, and HTML2Canvas.
- Actively collaborated with designers and frontend, backend, and full-stack teammates to deliver high-quality features.
- Participated in regular client meetings, contributing to requirements clarification, feedback discussions, and feature planning.

## PERSONAL PROJECTS

### Portfolio [↗](#)

- In my portfolio you can view projects from internships and my independent projects.

### Real Estate Application – EstateApp (05/2024 - 06/2024) [↗](#)

- Developed a full-stack real estate platform using React.js, Express.js, and MongoDB, allowing users to manage property listings, perform advanced searches, and communicate in real-time.
- Built a responsive and dynamic frontend with React, SASS, and Framer Motion, integrating map features with React-Leaflet and implementing secure rich text editing with React-Quill and DOMPurify.
- Created and secured RESTful APIs with Express and Mongoose, handling authentication with JWT and password hashing with Bcrypt.
- Enabled real-time user communication using Socket.io and implemented global state management with Zustand.
- Handled image and video uploads via Cloudinary, and provided user notifications and email contact through React Toastify and EmailJS.
- Ensured full CRUD operations for property management and implemented cookie-based sessions with cookie-parser.

## LANGUAGES

English  
Professional Working Proficiency

Bulgarian  
Native or Bilingual Proficiency

## TECHNICAL SKILLS

### Programming Languages

Python, JavaScript, TypeScript, HTML, CSS, SASS, SQL

### Tools & Platforms

Git, Firebase, Supabase, Prisma

### Frameworks / Libraries

Backend: Django Express.js Frontend: React, React Native, Vue, Angular, Next.js, Tailwind, Framer, Motion Three.js

### Databases

PostgreSQL, MySQL, MongoDB

## SOFT SKILLS

Initiative

Creativity

Motivation

Attention to detail

Adaptability

## EDUCATION

### Full Stack Developer Software University

10/2021 - 01/2025

Sofia

Courses

- [React](#)
- [VueJS](#)
- [TypeScript](#)
- [PostgreSQL](#)
- [Python Web](#)
- [Angular](#)
- [JS Front-End](#)
- [HTML & CSS](#)
- [JS Back-End](#)
- [Python Advanced](#)

### Graphic Art BA National Academy of Art

09/2015 - 06/2019

Sofia/Bulgaria

Courses

- Graphics - focused on fine art techniques such as drawing, engraving, and printmaking, including methods like etching, drypoint, and lithography.
